ENVIRONMENT

At Castle Green we have always been an advocate of supporting our local community - long before it was trendy to do so.

KENDAL...

Kendal is steeped in history being the traditional 'Gateway to the Lakes'. The castle which the hotel overlooks was the ancestral home of Katherine Parr, sixth wife of Henry VIII and provides a fantastic vantage point across the town and Lakeland fells. The town is also known for Kendal Mintcake which was famously taken to the top of Everest by Sir Edmund Hilary. If you've never tried it we keep a stock in our conference lounge for you to have with your coffee break.

TAKING RESPONSIBILITY...

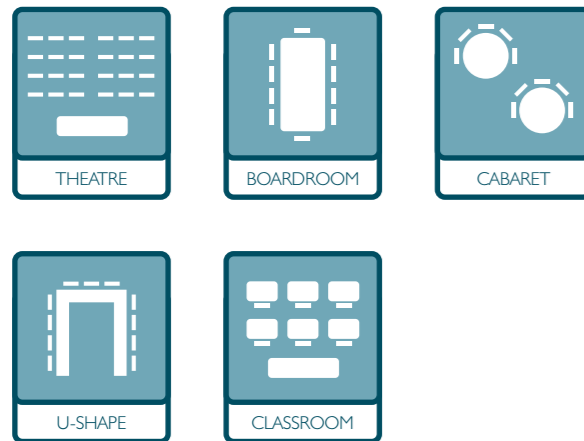

We purchase a significant proportion of our food, drink and business supplies from local companies, contribute to cultural festivals and even have a budget for raffle prizes for local charities and community groups.

We work with a number of environmental organisations to improve our energy efficiencies and recycling and have attained the Green Tourism Business Scheme's Silver Award for our efforts.

We have logged all the flora and fauna found on the site and created a trail in the woods behind the hotel to encourage more wildlife and planted an orchard and herb garden.

We employ local people having no 'live-in' accommodation and with staff turnover at a third of the national average you can be assured of a warm welcome by a familiar face.
